

SEMINOLE

Fresh Ground Horseradish

• Providers of Quality Since 1970 •

Taste, texture and freshness are key to all Seminole products. Our products are processed for shipment when the order is placed; this ensures the freshest quality product for our customers.

Our processes maintain the crisp clean natural taste and aroma of the fresh ground pure horseradish root. We use no artificial flavors, fillers, thickeners, soy oil or preservatives.

We consistently process only the finest premium light colored roots so we need no bleaching agents (sodium bisulfate) in any of our horseradish products.
